

**ABSTRACT OF THE DISCLOSURE**

5 A wastewater separator to separate waste from a mixed  
wastewater stream including one or more of heavy waste, light waste and  
water. The wastewater separator comprises a separation container, a inlet  
and an outlet. The separation container comprises (1) a wastewater stream  
director within the separation container, the wastewater stream director  
being sized, shaped and positioned relative to the wastewater inlet to direct  
the wastewater stream along a preferred flow path to permit the light waste  
10 to separate from the wastewater stream in a first direction to a collection  
area and to permit the heavy waste to separate from the wastewater stream  
in a second direction towards a heavy waste removal area; and (2) a flow-  
directing outlet baffle within the separation container for directing the  
wastewater stream to the wastewater outlet from the heavy waste removal  
15 area to remove the heavy waste from the separation container.
